DETAILED ACTION

1. Applicant's amendment filed on 6/09/2006 has been received and entered in the case.

Drawings

2. The replacement sheets of drawings were received on 6/09/2006. These sheets of drawings are acceptable.

EXAMINER'S AMENDMENT

3. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Steve Y. Cho on August 15, 2006.

4. The application has been amended as follows:

In the Claims:

Cancel claim 19.

In claim 20, change the dependency to claim 13.

In claim 1 line 11, insert -- and updates the first mapping information when a given obstacle is encountered by the automaton while performing the task within the first area; and re-routes the automaton based on the updated first mapping information. --- After "points;".

In claim 8 line 13, insert -- and updates the first mapping information when a given obstacle is encountered by the automaton

while performing the task within the first area; and re-routes the automaton based on the updated first mapping information. --- After "area;".

In claim 13 line 11, insert -- and updating the first mapping information when a given obstacle is encountered by the automaton while performing the task within the first area; and re-routing the automaton based on the updated first mapping information. --- After "route;".

Allowable Subject Matter

5. Claims 1-16 and 20-24 are allowed.

6. The following is an examiner's statement of reasons for allowance:

CLAIMS 1, 8 and 13: In view of the limitation the prior art does not disclose alone or in combination an automaton or a method of using an automaton having a controller, a memory; a motor and a communication interface to communicate with a plurality of anchor points being provided within a given environment and a position information enabling the generation of a mapping information so as to perform a task within a first area defined by the plurality of anchor points and updating a first mapping information when a given obstacle is encountered by the automaton while performing the task within the first area, and re-routing the automaton based on the updated first mapping information.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing

delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
